Seesaw is a student-driven digital portfolio that allows students to independently document what they learn in school. Seesaw is a student-driven digital portfolio that inspires your students to do their best work and save time. • All units, shared or one-to-one • Always free for teachers • Used in over 200,000 classrooms and 1 in 2 schools in the U.S. Awards Include: • 2018 Top Pick for Learning by Common Sense Education • Best Website 2016 by the American Association of School Librarians • Richard Byrne's Free Tech for Teachers How Does Seesaw Help Teachers? Seesaw's creative tools encourage students' engagement - Students express themselves, reflect on their learning, and create a portfolio that they pride themselves on showing others. Get ideas and save prep time • Browse thousands of great activities ready to use in your classroom today. • Collect students' answers digitally and drag fewer papers home. Focus even more on your students • Seesaw helps you see and hear what each student knows so you can better understand their progress • Provide more differentiated support through comments and feedback. How Does Seesaw Work? • Teachers find or create to share with the students. • Students Students pics, draw, record videos and more to capture and reflect on learning in a portfolio. • Families see their child's work and leave comments and encouragement. Other Seesaw features : Compatible with 100's of other apps, including Apple and Google apps. • Multiple sign-in options, including QR sign-in options for younger students or shared device classrooms. • Teachers control who can see what, and whether students and families can add likes or comments. • Translate notes, comments and captions into 50+ languages, including Spanish, French, Chinese, Japanese and more! • Class blogs, with the ability to connect to other classes. • Getting started tips and professional development resources on help.seesaw.me. • Follow @Seesaw Twitter or join our Facebook group of seesaw teachers to provide feedback and connect with other inspiring educators. • Seesaw is COPPA, FERPA and GDPR compliant. Learn more on web.seesaw.me/privacy Seesaw works great on any computer or device. For the best experience, bookmark app.seesaw.me on your computer. Then download the correct version of the Seesaw app for your device and your students' devices for anywhere access. Look for seesaw: The training journal in the app stores. Stuck somewhere? See step-by-step instructions to download the apps. This app is only available on the App Store for iPhone and iPad. Seesaw is the best platform to give students the opportunity to demonstrate and share their learning. Students use powerful tools in the Seesaw app to create, reflect, and demonstrate learning. As students share their learning in their Seesaw portfolio, teachers and families gain valuable insights into what their students know and can better support their development throughout the school year. Teachers tell us that students who use Seesaw feel strong, motivated and proud, and that they are engaged in more meaningful ways. The basics: • Seesaw is used in over 200,000 classrooms, over 150 countries and 1 in 2 schools in the U.S.: The core Seesaw experience is free for individual teachers and always will be, Seesaw works on any device, shared or one-to-one How does Saw Work look? • Students use Seesaw's intuitive tools to show learning in a portfolio. • Teachers see what students know and get ideas for activities in Seesaw. • Families see their child's work and leave comments and encouragement. What can teachers do with Seesaw? • Unlock creativity for all students in any subject Get insights to meet students where they are; Engage families in conversations centered on student learning; Give students a space for ownership and choice; Get inspiration and ideas for your classroom; Celebrate and recognize students' progressAwards Include: • 1 2018 Top Pick for Learning by Common Sense Education: Best Website for 2016 by American Association of School Librarians: Richard Byrnes Free Tech for Teachers: Featured by Apple as Perfect for Every ClassroomOther Seesaw Features • Compatible with 100's of other apps, including Apple Apple Google apps. • Multiple sign-in options, including QR sign-in options for younger learners or classrooms for shared devices.- Teachers control who can see what, and if students and families can add like-type or comments./ Translate notes, comments and captions into 50+ languages, including Spanish, French, Chinese, Japanese and more!; Get started tips and professional development resources on help.seesaw.me./ Follow @Seesaw on Twitter or join our Seesaw Teachers Facebook group to provide feedback and contact with other inspiring educators. • Seesaw is COPPA, FERPA and GDPR compliant. Read more at web.seesaw.me/privacySeesaw for Schools: PremiumFeaturesMake Seesaw an official part of your school or district with our subscription service. Bring the power of Seesaw and additional premium features to all your students, teachers, and families. Additional benefits include the ability to: • See student progress year over year; Get real-time insights into school-wide learning; Centralize setup and management for your school or district December 8, 2020 Version 7.5.5 - Reliability improvements to upload posts I teach 1st grade, and I love the way that Seesaw allows my students and me to share what's going on in our classroom. My students can record their voices, take pictures of their work, and share their thinking with me and with their families via Seesaw. It's also a really quick way for me to communicate with parents. I use Seesaw to send out my weekly class newsletter and to send out last minute messages, as well. Great way for teachers, parents and students to stay in touch! Plus, it's a great place for teachers to share things with each other. I use so many commissions from the community of teachers at Seesaw to promote thinking and learning in my classroom. The only thing I wish was different about Seesaw is I wish I could assign things just to certain students instead of the whole class. It would help me to separate my missions better. Maybe there's a way to do it and I just haven't figured it out yet... 📌 ❓ Not sure. But overall, Seesaw has been such a neat tool and resource for my classroom! I am an experienced teacher, and I have been using Seesaw for years. It's always been wonderful. It's the most helpful technical tool I've ever used by FAR! It's always been amazing, but they always make improvements, and they respect the teacher's input. Since the pandemic, they have been incredibly-dealing with an influx of new users and go beyond meeting ever-increasing needs. I never want to stop using Seesaw. It is excellent for virtual teaching and face-to-face teaching. It has been given outstanding tools and features for teachers, AND it is user-friendly for teachers and students. I use it with Kindergarten students, and they get the hang of it so quickly. They love it. It's engaging and fun, but it improve their learning. The people at Seesaw really want to do the best they can for students. It's by far the best technique I've ever used in the classroom. Like many, I'm sure, I've used the Seesaw app for distance learning during the Covid-19 pandemic. Overall, the app has been beneficial for teachers to share lesson plans, and we use the app that resembles a social media platform (FB) by responding to the teacher's posts with the completed assignments. Unfortunately, that's also why I only rate the app 3 stars. The problem is that once I have responded to an activity posted by the teacher, there are no indicators that the specific task was completed/answered by me resulting in a lot of time spent searching through tasks that need to be completed. I liken this question to have read an email in Outlook and then go back later to an email but all emails are marked as unread. It would be excellent if the developer were to create a means for the completed missions to be highlighted that it has been answered/completed. Furthermore, it would be additional helpful if the app indicated that the instructor was reviewing the students' work and whether it needed to be redone. The developer, Seesaw Learning, Inc., indicated that the app's privacy practices may include data management as described below. For more information, see the developer's privacy policy. For example, the following data may be collected and linked to your identity: Contact Info User Content Identifiers Usage Data Diagnostics Privacy practices may vary based on the features you use or your age.
